

PARKING LOT PROCEDURES

WE NEED YOUR COOPERATION!!

VERY IMPORTANT
PLEASE READ

VERY IMPORTANT
PLEASE READ

- * Please do not park behind cars that are in a parking space. This blocks the cars and people can't leave when they need to.

- * Do not leave your car parked or unattended in the middle lanes in either the driveway or in the entrance or exit area. These lanes are for passing traffic ONLY, NOT FOR PARKING CARS.

- * Do not park or leave your car unattended on the CURBS that are in the middle of the driveway or right in front of the school by the three yellow poles. You CAN park by the curbs that are by the grassy areas on both sides of the school.

- * Please do not park in the spaces that are marked for OFFICE personnel or STAFF personnel. All other spaces can be used for parking.

If these procedures are followed our parking lot traffic will move a lot faster and run smooth. As of now we are having a few problems with traffic jams and parking in the wrong place. Please make every effort to follow these procedures.

Thank you for your help in this matter.
